

\$109 Mobal GSM World Phone

Testimonials
Coverage & Call Rates

Discover the 6 Reasons Why Mobal Is America's #1 Selling World Phone Service

1. Get the best cell phone quality available

In the US, there are a number of cell phone carriers, like Cingular and T-Mobile. The same is true of other countries of the world. However, because your Mobal World Phone is not tied to one single carrier in any country, it will automatically choose which one has the strongest signal where you are, and use that carrier to direct your call. This means your calls will be the best quality and reliability available. Other cell phone service will be restricted to using just one carrier, so at risk of having a lower-quality line.

I decided to give the too good to be true Mobal World Phone a try. I am a cynical shopper, especially with phones, but must report that the connection quality was the best I have ever experienced - not a single dropped call, no cutting in and out, I spoke to my daughter in Italy like it was around the corner!

Vince Careccia

2. Dial directly as opposed to having to be redirected and wait for a call back tone, which is frustrating especially in business related calls

With your Mobal World Phone you dial the number you want and you're connected directly to it. Simple, like you're used to with your domestic phone. Other international cell phone services work using a "Call Back" service. This complicated method connects you to the number you're trying to reach through a third-party network that calls you back. This extra step means the chances of a call being low quality, or cutting out completely, are greatly increased (Warning: This "Call Back" method will often not be mentioned in the sales literature, and you'll only discover it once you've bought it and read the instructions - be sure to ask first! The Mobal World Phone gives you simple, direct dial calls every time!)

"In the past we relied on phone cards and different phone plans. Many of them didn't work and we never made calls we should have. When we purchased your Mobal World Phone and started to use it, it was like using our phone at home. We never lost a call and all calls were crystal clear."

Vincent Massa

3. Travel from country to country without having to change numbers, SIM cards, or call-back services. One pan-world phone and one number for all your journeys

Your Mobal World Phone's coverage is simply amazing. This one service will probably work in every country you're likely to travel to in the future. There are officially 193 countries in the world as recognized by the US State Department. Your Mobal World Phone service can work in over 160 of them! And the best thing is, you don't need to do anything to your Mobal World Phone when you cross the boarder - it does everything automatically for you!

"I have traveled extensively throughout the world for over 25 years and have flown over 3 million air miles. I must say that the purchase of your Mobal World Phone has been the biggest improvement in my travels, ever."

Ray Schwartz, Memphis, Tennessee

4. Have an extremely easy to use high tech GSM phone, even if you hate technology

One of the biggest concerns many Mobal World Phone users have before they purchase is that they won't understand how to use it. That it'll be too complicated. This is a potential problem that we identified many years ago, and so we've kept both the handset and the way the service works as simple as possible. For example, no matter which country you're in, you follow one set direct-dialing method that allows you to call any phone anywhere in the world.

"After recommending Mobal to an elderly relative, I was worried about her being able to work the phone. She is not easily taught to use "modern gadgets" as she calls them, but she said I "love" my Mobal World Phone and am delighted I purchased it."

Tina Hamblin

5. Your Mobal World Phone Is Perfect No Matter How Much Or Little You Travel Every Year

One great feature of the Mobal World Phone is the fact that it has absolutely no extra service fees. Once purchased, you only ever pay for your calls. This is because there's no "yearly fee", no "monthly fee", no "activation fee", no "hidden fee", and no "any-other-type-of-fee-you-can-think-of-fee". What this means is no matter how much or little you travel each year, the only charges you get billed for are for the calls you made on your trips (conveniently on the credit card you use to purchase the Mobal World Phone). The rest of the year the phone can be packed away at home not costing you a penny.

"I did extensive research on the various ways of obtaining cost effective, convenient international phone service. With no monthly fees and virtually world wide coverage the Mobal World Phone was the best option."

Angus Fraiser

6. Your Mobal World Phone Comes With Free, 24-Hour Customer Support

No matter what type of international cell phone you use, and no matter how reliable or easy it is to use, you may find you still have a few questions or queries that you need help with. And the last thing you need is a lot of hassle when trying to get the answers. That's why when you sign-up for the Mobal World Phone, you also get a whole support team behind you, ready with a friendly voice to listen, no matter where you are in the world.

"I have been very happy with the service not only of the phone but your customer support staff. Very friendly people and helpful too."

Christopher J. Poisella

Coverage and call rates are on the next page...

Here's the incredible list of countries where you can use your Mobal World Phone

And it gets even better -- practically no other world phone can give you the crystal clear call quality of the Mobal World Phone. That's because the Mobal GSM World Phone automatically uses whichever foreign network has the best signal -- so you get the best call quality available to mankind, wherever you travel, GUARANTEED. Amazingly, you get better call quality than most of the locals get! (How unfair!)

- Absolutely no additional roaming charges or hidden extras
- 'National Calls' are calls made to the same country that you are calling from, including cell phones & "toll free" numbers.
- Calls made to other Mobal GSM cell phones are charged as 'Calls to the UK'.
- 'Calls to other countries' includes calls to all other international destinations, except for calls to Iridium, Inmarsat, Globalstar or Thuraya sat phones (contact Mobal for details).
- SMS text messages are \$0.80 per message. Incoming text messages are free of charge.
- For rates and coverage for GPRS data services, contact Mobal.
